

# HEALTH FREEDOM DEFENSE FUND

Honorable Louie Gohmert  
United States Congressman  
2269 Rayburn HOB  
Washington, DC 20515

Re: Support for H.R. 5816, National Informed Consent Exemption (NICE) Act

Congressman Gohmert,

Health Freedom Defense Fund is (HFDF) commends your efforts and courage in bringing a bill to protect bodily autonomy. We are writing this letter to show our support for your efforts to protect each and every American's medical freedom. Americans are being flooded with conflicting information surrounding a highly politicized crisis but as Justice Gorsuch recently wrote in his concurring opinion to the Roman Catholic Diocese of Brooklyn and Agudath Israel of America, et al., "even in a pandemic, the Constitution cannot be put away and forgotten." The only Constitutional imperative is to maintain the individual's right to make medical choices free of coercion or duress. We know that bringing forward a bill of this nature was not easy, but it is necessary to protect our individual liberty.

At Health Freedom Defense Fund we stand for freedom, choice, and the most basic of human rights, bodily autonomy. This bill ensures that American's have the right to choose what is injected into their body. We support the NICE Act as it encompasses the primary tenets of our mission. Health care was never designed to be one-size-fits-all and the practice of ethical medicine requires voluntary informed consent. It is the right of every American to choose what they put into and on their bodies.

Thank you for your efforts to bring forth legislation for the people. We are asking all Americans to join in support of this bill not only for ourselves but for future generations.

Sincerely,

Leslie Manookian  
President  
Health Freedom Defense Fund
